An introduction to Transworld

Founded over 30 years ago, Transworld specialises in time critical international and UK courier, marketing and POS storage, pick and pack, logistics, complex manual and high-volume automated fulfilment, mail and distribution services.

We serve over 1,000 customers covering their logistics and distribution needs. Each year, we deliver over 500,000 courier consignments, handle several million items of mail, store and manage thousands of pallets in our 100,000 sq. ft facilities and fulfil several million packs.

Our Service Sectors:

- Courier
- Logistics
- Mailing & Fulfilment
- Contract Packing

Transworld

Courier

At Transworld we specialise in time sensitive courier services with a very quick turnaround. Our international network spans over 200 countries and our service is locally geared giving you greater control of your courier needs and instant access to our support teams. With substantial next-flight-out options, customs pre-clearance capabilities and International Express service, there is no faster or safer way to transport your vital shipments.

- International Specials
- UK Next Day Delivery
- UK Same Day Delivery
- Imports
- International Express

Logistics

We serve an impressive client base of global companies offering a complete storage, distribution and fulfilment facility. With warehouse space of over 100,000 square feet, we have space for more than 6,000 standard pallets of stock, which you can manage either online via our innovative stock control system or through our account handling team.

With our real-time pick, pack, track and distribution service, you can have complete piece of mind that your marketing collateral and products will get delivered to where you need them, on time, every time.

Mailing and Fulfilment

We have the people, facilities and software to cover every mailing and fulfilment need. High volume and hand automated fulfilment is easily achieved, alongside simple mass mailings and more complex database driven campaigns. Our team is able to offer every method of fulfilment from mechanical enveloping through to polywrapping and hand packing. We can also assist you in organising your promotional campaigns by collecting and assembling everything your promotion and marketing kits need.

Contract Packing

Our contract packing service has over 30 years' experience and expertise in product packaging and high volume output. From labour-intensive work and high volume output, to specialised high-tech packing requirements, we provide the equipment and experienced personnel whilst bringing cost savings in premises, staff, machinery and storage. Our comprehensive packaging services range from pack design, shrinking wrapping and hand packing to L-sealing, labelling and coding.

Bespoke Services

Our flexibility and processes allow us to provide a suite of bespoke services, meeting the unique needs of our customers. Working closely with customers and using our extensive industry knowledge, we develop bespoke and tailored services for any industry.

We are dedicated to going the extra mile, no matter what it takes.

- On-board Courier Services
- Customs compliance assistance
- Clinical Trials
- Hazardous shipments
- Remote storage locations
- Reverse Logistics (returns)
